### RELEVANT PROJECTS

**Online Test Platform** [GitHub](#)  
Knowledge Gateway <https://www.testonlinee.uz/>

- Online Test Platform – Built with React.js, Tailwind CSS, and Express.js.
- Admin can add teachers, who in turn create tests and generate unique login credentials for students.
- Students log in using assigned credentials to take tests.
- Real-time scoring provides instant feedback on correct and incorrect answers.
- Full-stack solution ensuring seamless interaction between admin, teacher, and student roles.

**Research Articles Collection** [GitHub](#)  
Fer Teach – Educational Platform <https://ferteach.soliyev.uz/>

- Built with React.js and Tailwind CSS, Fer Teach is an educational platform that consolidates 5 scientific journals into a single collection.
- Users can explore articles within each individual journal.
- A search functionality allows users to find articles across all journals in one place.
- Designed to provide an organized, user-friendly experience for students and educators, combining education and research access in a single platform.

### EDUCATION

**Tashkent University of Information Technologies, Fergana Branch | (2024 – present)**

Bachelor's Degree in Computer Engineering

- GPA: 4.03
